

The Minnesota Heating and Cooling Association is pleased to present...

Air Conditioning System Diagnostics

Tuesday, May 9, 2017

8:30 a.m. - 9:00 a.m.

9:00 a.m. - 3:00 p.m.

Registration

Program

(Lunch/handouts included.)

**Auer Steel
865 Xenium Ln
Plymouth, MN 55411**

Max = 30

In this program you will learn: Application Limits of the Refrigeration Cycle; Line Set Applications; Air Volume, Compressor, and Refrigerant/Oil/Moisture Limits; and a whole lot more....

We are pleased to welcome back Michael Prokup (Prokup Media). Session after session, Michael has been one of our highest-rated speakers, providing leading HVAC contractors across the country with seminars, training, technical publications, and marketing services. Michael is a graduate of DeVry University and specializes in the development of HVAC-related training and technical publications.

In this program, Michael will help service technicians learn how to establish operating performance that maximizes efficiency, capacity, and reliability. By understanding how a system works, it's more likely that operation and performance issues can be corrected.

What people say about his classes: *"Prokup always keeps the class entertained and involved."*
"Today's course was great."
"Best training program I have done yet."
